English

PATRIC ANGLY

FRONT-END DEVELOPER

Front-end Developer with strong skills in modern web technologies, committed to create innovative and meaningful web solutions.

PROJECT

PRODUCT MANAGEMENT SYSTEM

Stack - C#, .NET, SQL Server, React, JavaScript

- Developed a web-based production management system to streamline product flow.
- Designed and implemented the backend using C#/.NET with JWT authentication and RESTful API, enhancing security, user management, and data handling. ASP.NET Authorization for secure login with JWT.
- Utilized SQL Server with Entity Framework Core and Azure Data Studio for efficient data storage and retrieval, streamlining database operations and reducing query response times.
- Built a responsive frontend with React, reducing loading times and improving user experience.
- Took the project from concept to a functional prototype.

WORK EXPERIENCE

INTERNSHIP FRONT-END DEVELOPER, SKILLUR AB

Fullstack Developer, Sep 2023 - Jun 2024

- Developed digital solutions to enhance the efficiency of business processes and user engagement.
- Created an interactive user interface with React to enhance user experience.
- Implemented REST APIs with Node.js for efficient data handling and communication between server and client.
- Used MySQL for database management, which includes design, setup, and maintenance of databases.
- Collaborated with team members in an agile environment, participating in daily standups, demo days, and maintaining up-to-date documentation in the backlog using Jira.
